Presidents Introduction

Welcome to the 39th Wingham Beef Week!

This year's event will take place at the Wingham Showground from the 11th to the 15th of May.

Wingham Beef Week is built around a week of educational experiences for passionate students, juniors, and producers, from the show ring to educational seminars and abattoir visits. It aims to educate the next generation of beef enthusiasts in a hands-on environment, increasing their knowledge and exposure to the Australian beef industry through education and competition. In 2025, we were thrilled to have over 600 students participate throughout the week.

Keeping with the origins of Wingham Beef Week, we continue to provide an avenue for producers to test their skills and benchmark their finished products against other producers and industry peers by competing in led and unled carcass competitions. It was great to have such a big turnout of local producers at our Unled Dinner and celebrate the local beef cattle industry.

We were extremely pleased to have the opportunity to bring such a big event to the township of Wingham and celebrate our farmers, particularly given that the following week saw one of the most catastrophic weather events to impact our region. I am particularly in awe of the local community's work and support to get back to a new normality following the May floods- and very proud of the role our Volunteers across Wingham Beef Week played in sharing information to and supporting our farmers at such a pivotal time.

We know that in light of these events, it is more difficult for local businesses and the community to support Wingham Beef Week. We are therefore very thankful and greatly acknowledge your support this year! Exhibitors and schools- please support our local businesses this year as they continue to work to get back on their feet, and please give a special thanks to all our Volunteers throughout the week for all their work. We couldn't run our event without all this backing, and we are very appreciative of all the time and support all our volunteers and businesses invest in youth in agriculture.

It would be remiss of me not to mention the continued support of NH Foods and Wingham Beef Exports for their continued generosity to Wingham Beef Week, particularly opening the doors for youth and producers to access the abattoir facilities. A big thank you to Chris Black (General Manager) and team for the commitment to Wingham Beef Week.

The 39th Wingham Beef Week provides such an exciting time to reflect on where the event has come from and gear up for a 40th-year celebration in 2027.

Our event continues to grow- in 2025, we had a record number of entries across all categories last year and we expect a larger turnout this year. Thank you to all exhibitors for your trust in the event and for coming along! Also, a big thank you to the Traditional Simmental Fleckvieh Society of Australia for your support with the School Steer Challenge steers this year.

Lastly, I again need to express my sincere and greatest thanks to our Committee and Volunteers. Thank you for all the work throughout the year that you contribute to the event. Thank you for all your encouragement in providing the best experience for youth in agriculture in our local region and beyond. We have an incredible team that consistently wants the best event for all exhibitors, now and into the future. Please thank them all deeply for their efforts around the grounds this year!

Thank you for your support, and we look forward to seeing you again at this year's Wingham Beef Week.

Cheers

The Traditional Simmental Fleckvieh Society School Steer Challenge

At Wingham Beef Week 2026, we are happy to reintroduce our School Steer Challenge into the schedule. This year we have 13 schools competing with our 13 Fleckvieh steers purchased by the Traditional Simmental Fleckvieh Society and provided to us. These steers joined their new homes at the schools on the 29th of November and will all reunite during Wingham Beef Week, where they will compete in a class of their own. This class will be known as The Traditional Simmental Fleckvieh Society School Steer Challenge, and will be the first class judged on Wednesday, 13th of May 2026.

Conditions of Entry

1. Entries, accommodation applications and meal applications **MUST** be submitted online with the required payment in full via: winghambeefweek.com.au
2. No postal, fax, phone or email entries
3. All participants (including passive participants) must complete, sign & submit the "Animal Handling Risk Acknowledgement & Waiver Form. Parents/Guardians must sign if competitors are under 18 years of age. Forms attached for copying.
4. Signed waiver forms **MUST** be received by the secretary on or before the closing date of 11th of April 2026.
5. Wingham Beef Week expects teachers and parents/carers to maintain a duty of care and provide supervision of their students throughout the course of Wingham Beef Week. Wingham Beef Week takes no responsibility for the supervision of any students.
6. The committee reserve the right to limit entries or to reject entries considered dangerous or of insufficient merit.
7. Identification Competitor Tags will be issued to all registered participants. These **MUST** be worn at all times during the competitions and remain visible.
8. The committee reserves the right to remove any persons whose behaviour is considered to be inappropriate. These persons may be removed from various competitions or the grounds completely.
9. All participants entering the Wingham Beef Exports Site must complete and sign the Visitors Site Rules and Visitors Declaration prior to entry. (attached - please copy if required)
10. All electrical leads and equipment must be tagged and current. These will be inspected by committee members. Unfit electrical items will be removed by the committee.
11. No Smoking of cigarettes or vapes at any time on Wingham Showground.
12. Each school must nominate a First Aid Officer.
13. Individual fires will be allowed as long as they are always supervised and well-maintained.
14. Photo consent forms must be filled in prior to the event.
15. Pestivirus testing is not a requirement for Hoof & Hook cattle exhibits, however, you may consider Pestivirus testing for any other animals that are returning to your property.
16. A representative must be present at the mandatory Teachers/Exhibitors meeting 6pm Monday the 12th of May.
17. All Led Hoof & Hook exhibitors are required to have a representative available for ear tagging on Tuesday the 12th of May starting 6:30am sharp. Any animal not presented for tagging by 8:30am may be removed from the competition.
19. Wingham Beef Week is an alcohol-free event, with the exception of official functions, e.g., Producer dinner. Any unauthorised or underaged drinking will be dealt with at the discretion of the committee.
20. To ensure the safety of all those on Wingham Showground, various areas will be marked 'out of bounds.' Any participants found in these areas by the committee will be removed from competitions such as ICMJ or Herdsperson.
21. Stakeholders who have been banned due to their actions are asked not to attend. These people are not welcome to attend Wingham Beef Week and will be removed from the site.

Hoof & Hook Competition

Conditions of Entry - Led

1. The Hoof and Hook section allows for the entry of a singular animal. Entry fee is per animal.
2. The committee reserves the right to remove an animal considered to be intractable or unsafe from the led classes.
3. All cattle must be restrained by nose rings or nose grips.

Class 2.9 Unled Pen of 2- Hook Only Competition

The highest combined ABCAS scoring pair will be awarded Champion.

Producers can nominate their best pair in the Unled Competition to enter into the 'Pen of 2'. There will be no entry fee for this competition. There are no restrictions for the pair. Producers select which two animals they believe to be their best. For example, the pair can be made up of a lightweight and a heavyweight. They are segregated via carcass weight into their classes, they are then ABCAS assessed against each class's respective specifications, with the combined ABCAS score of the pair being their total.

*See information on classes 2.1-2.4 for the carcass specifications.

Carcass Jackpot Competition

Entry fee is \$25.00 per animal for the Jackpot.

A carcass jackpot system will be in operation.

To be eligible, exhibitors must nominate with their entries and pay the additional \$25.00 jackpot entry fee together with their class entry fees.

Open to both led and unled exhibits, and only nominated animals will be eligible to win the jackpot

Late nominations for Jackpot WILL NOT be accepted.

The jackpot fee's will be pooled and then divided into weight classes for both Led & Unled categories (Lightweight, Light Middleweight, Middle Heavyweight and Heavyweight), The winner of each category will receive 80% of its pooled value, with the remaining 20% going to the Overall Champion from both Led & Unled.

Grass Fed Carcase Competition

Carcases which are certified as pasture fed only (entries consigned with a statutory declaration) will have the opportunity to compete for Champion and Reserve Champion Grass Fed Carcase. These awards are awarded to the two highest scoring carcase from the Led and Unled section combined.

The Wingham Beef Week Encouragement Award

This competition is open to all schools. In this Competition, competitors will be interviewed by a panel about their knowledge of, commitment to and aspirations for their agricultural future and about their involvement in Agriculture at their school and the contribution that they make to the subject. Teachers from each school are asked to nominate one student from their Ag Show Team who is an “All Rounder” and a “stand out team player”, not only at shows, but throughout the whole year.

Teachers need to consider the following criteria when nominating a student for the award.

- Is a person who provides leadership at the school farm and in show team activities.
- Is a person who contributes in many ways to the day-to-day running of the farm/show team.
- Is a person who has pride in her/himself and her/his school farm/show team.
- Is a person who shows a genuine interest in working as part of the show team or at the school farm.
- Is a person who is involved in a variety of activities at the school farm and show team. An overall winner and runners-up will be chosen and each will receive a cash prize
 - There is no entry fee for this competition.
 - First prize is a trip to Tocal Beef Assessment Course.

Conditions of entry:

1. To be eligible for 1st prize students must be over 18 years old or over by 30th of November 2026 and be willing to attend the course from the 30th of November to 2nd December 2026. All students will be asked this question at their interview. Important Notice this only applies to the winner from the entrants who are eligible for the competition.
2. Students are required to bring a letter thanking the sponsor and briefly outline the role agriculture plays in their lives.

This section is proudly sponsored by Oakland Park Angus.

Exhibitor Steer Shootout

New to Wingham Beef Week 2026, we introduce the Exhibitor Steer Shootout.
Entry \$10 per animal- winner takes all.

How it works

- Exhibitor will choose 1 steer to represent themselves and their program.
- Animals will be brought out in pairs based on their weights from the weigh-in.
- Panel of 3 judges will have 30-50 seconds to make a decision- when prompted by the MC, the judges will raise either their right or left arm, which will determine which animal will advance to the next round, eliminating the other.
- Animals advancing to the next round will be paired up with the next animal based on weight.
- Animals will be assessed on carcase attributes and how well they meet desired specs for their weight. Judges decision is final.
- When the draw comes down to the final two animals, the winner will take the total prize pool.

‘Soil is one of our most important natural resources, from which, 95% of food is produced. Beyond food, soils provide important ecosystem functions, including plant available water holding, supporting a diversity of biology jointly responsible for carbon and nutrient cycling, and potential for carbon storage. However, since conversion of native to agricultural ecosystems, soils have lost up to 60% of soil organic matter – the foundation of the soil food web. Addressing this decline, to ensure the sustainable management of our precious soil resource, has been a key priority at both global and national scales. But not all soils are equal, so to manage them, we first need to understand them, and the factors that influence them. So, what is soil health and function? And what can we do to understand our soils?’
